

SURECALL EXTERIOR VEHICLE ANTENNA

Part #: SC-208W

For Use with SureCall Vehicle and RV Signal Boosters

Overview

SureCall's wide band 3.8" magnetic roof-mount exterior antenna captures outside cellular signal for vehicle cell phone signal boosters. Stay connected anywhere with this next generation high-gain antenna that is equipped with a strong magnetic base that can hold up in the harshest of conditions. SC-208W is compatible with SureCall vehicle signal boosters that use an outside antenna and supports all North American cell carriers.

Features

- FME-Female Connector (50 Ohm)
- 2.5 dBi Gain
- Wide band: 2G, 3G & 4G LTE (698 - 2700 MHz)
- Height: 3.8"
- Cable length: 12.5 ft
- Portable and magnetic mount – easily transferable
- Omni-directional antenna receives signal from all directions

Technical specifications

Part Number	SC-208W
Frequency	698-960 / 1700-2700 MHz
Input Impedance	50 Ohm
Antenna Gain	2.5 dBi
VSWR	≤3.5
Polarization Type	Linear
Radiation Pattern	Omni-directional
Connector	FME-Female
Cable Length	12.5 ft
Maximum Power	50W
Height	3.8"
Width	2.2"
Operating Temperature	-4°F - 149°F

Installation

For best results, the antenna should be mounted in an upright position. SC-208W is designed to be roof-mounted on a car, truck or RV with a SureCall vehicle cell phone signal booster. SC-208W is omni-directional and gathers cell signals from all directions and does not need to be pointed towards a cellular tower.
